

Guest Management System for Modern Hospitality

GuestEzee is an all-in-one Guest Management System that enhances guest experiences through realtime alerts, AI insights, and seamless operations. It simplifies hotel management, boosts revenue, and ensures personalized, efficient service delivery.

Pain Points in Hospitality Management

Operational Hurdles.

Missing guest orders and delayed processes can impact overall productivity

Sustainability Challenge: Environmental Impact of Plastic Room Keys

The use of plastic room keys for access contributes to unnecessary plastic waste, posing a sustainability challenge for hotels.

Delayed Issue Resolution

Slow responses to guest complaints harm satisfaction and brand reputation.

Low Guest Engagement

Limited reviews and poor ratings reduce guest loyalty and repeat business.

Missed Revenue Opportunities

Absence of effective tools for promoting additional services and upgrades.

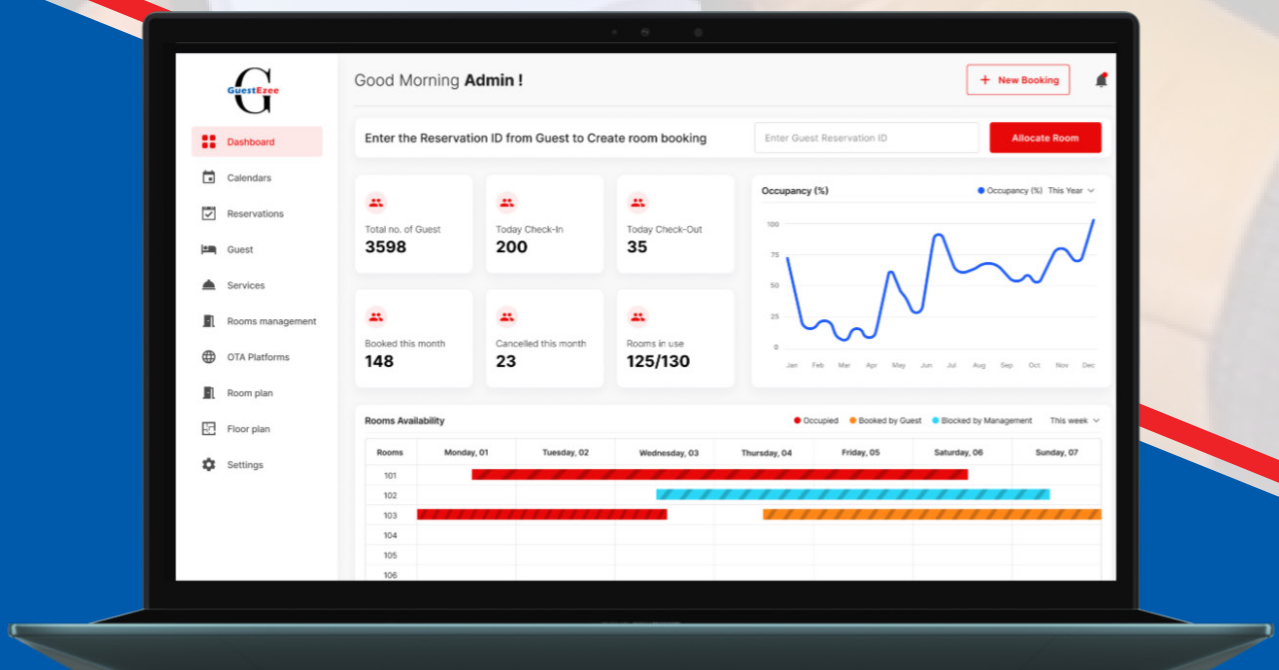

Comprehensive Modules of GuestEzee

- Centralized database with guest profiles, preferences, and history.
- Easy access to guest information for personalized service delivery.

- Real-time dashboards to monitor operations, guest behavior, and revenue.
- Predictive analytics for demand forecasting and inventory planning.

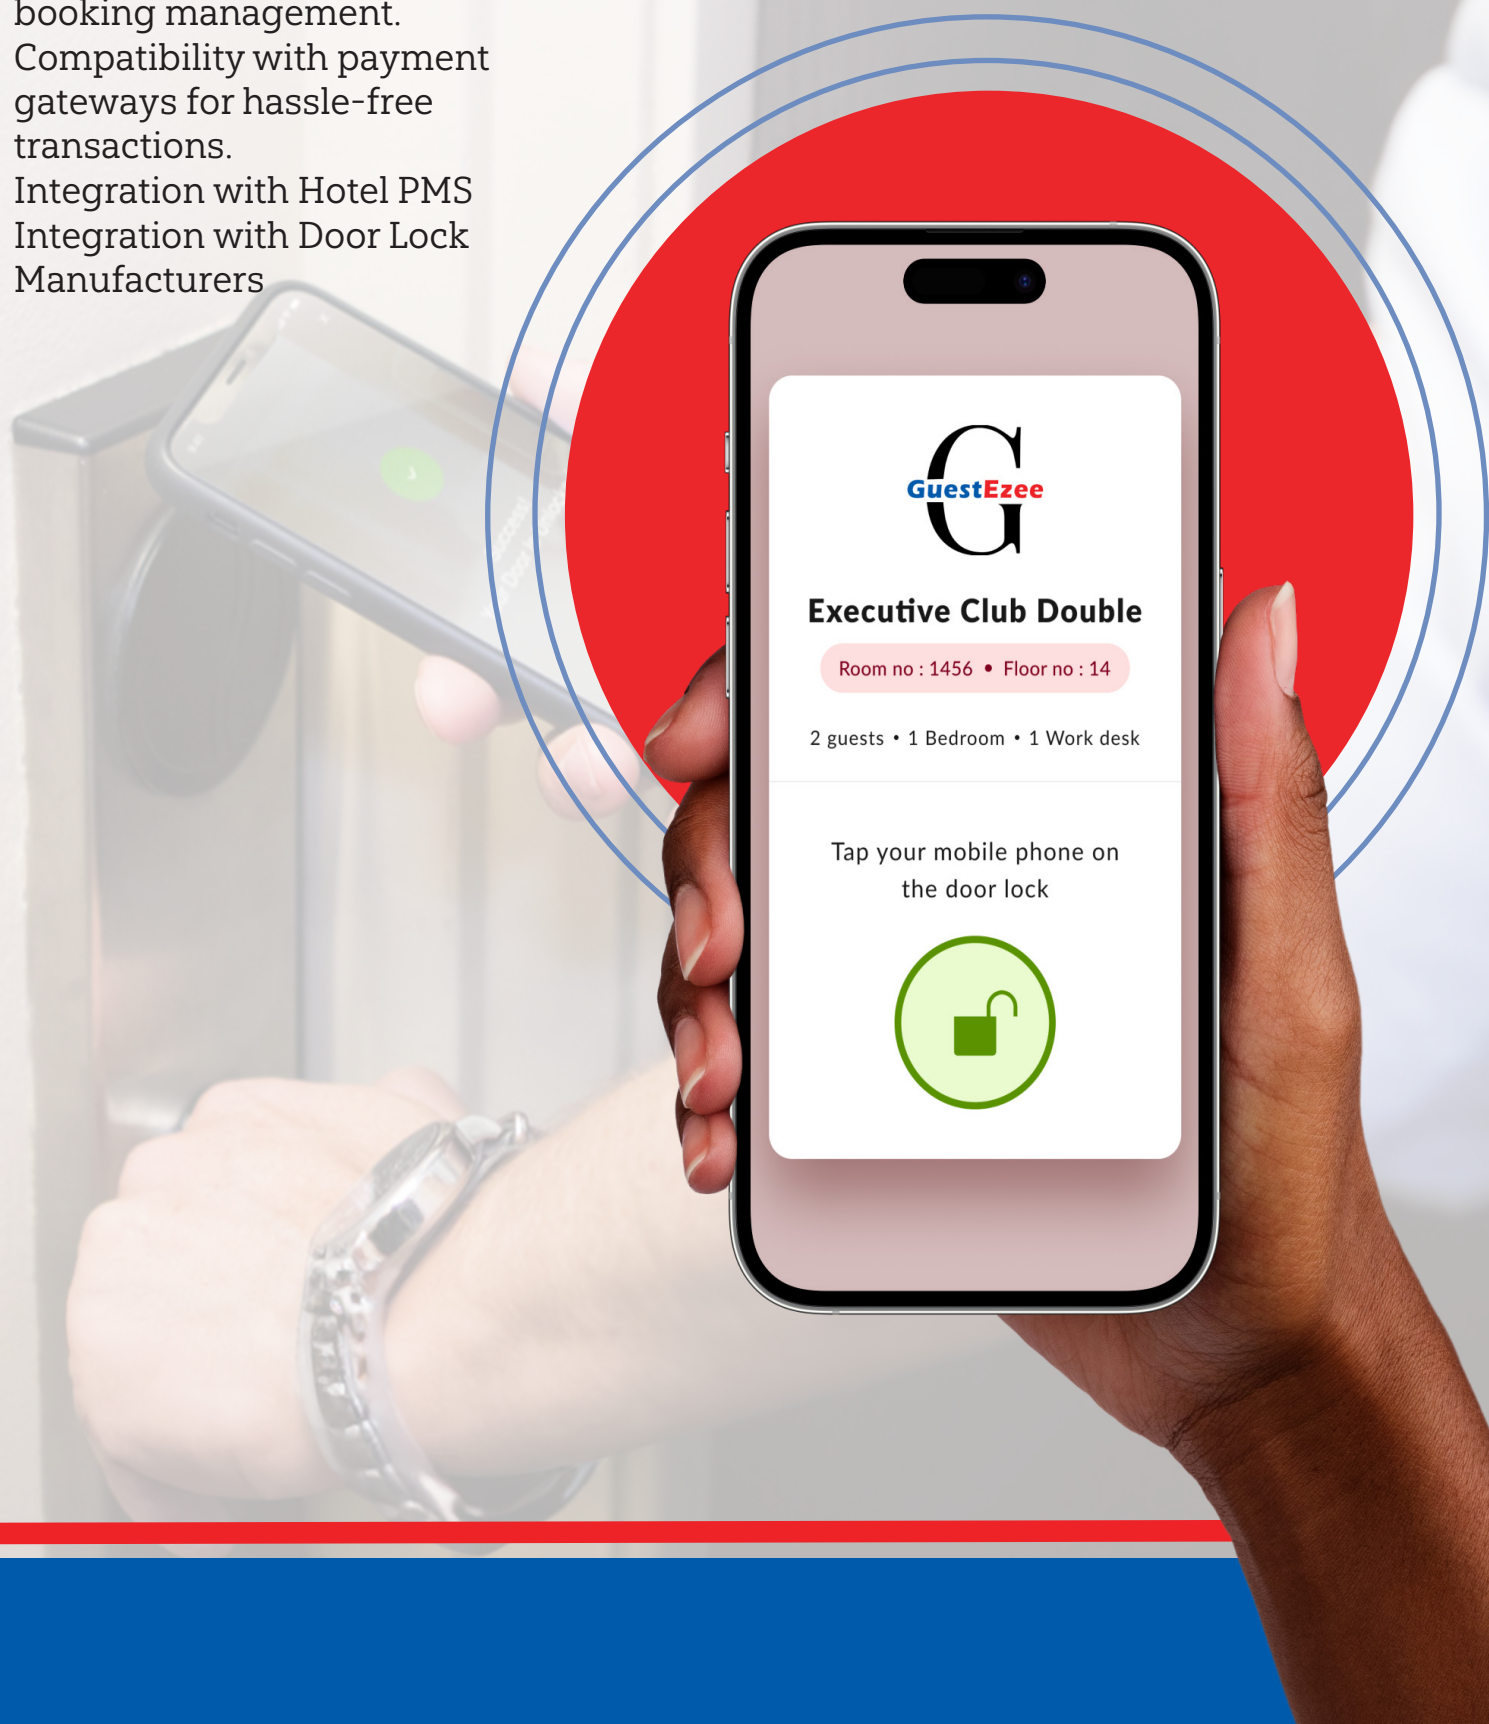

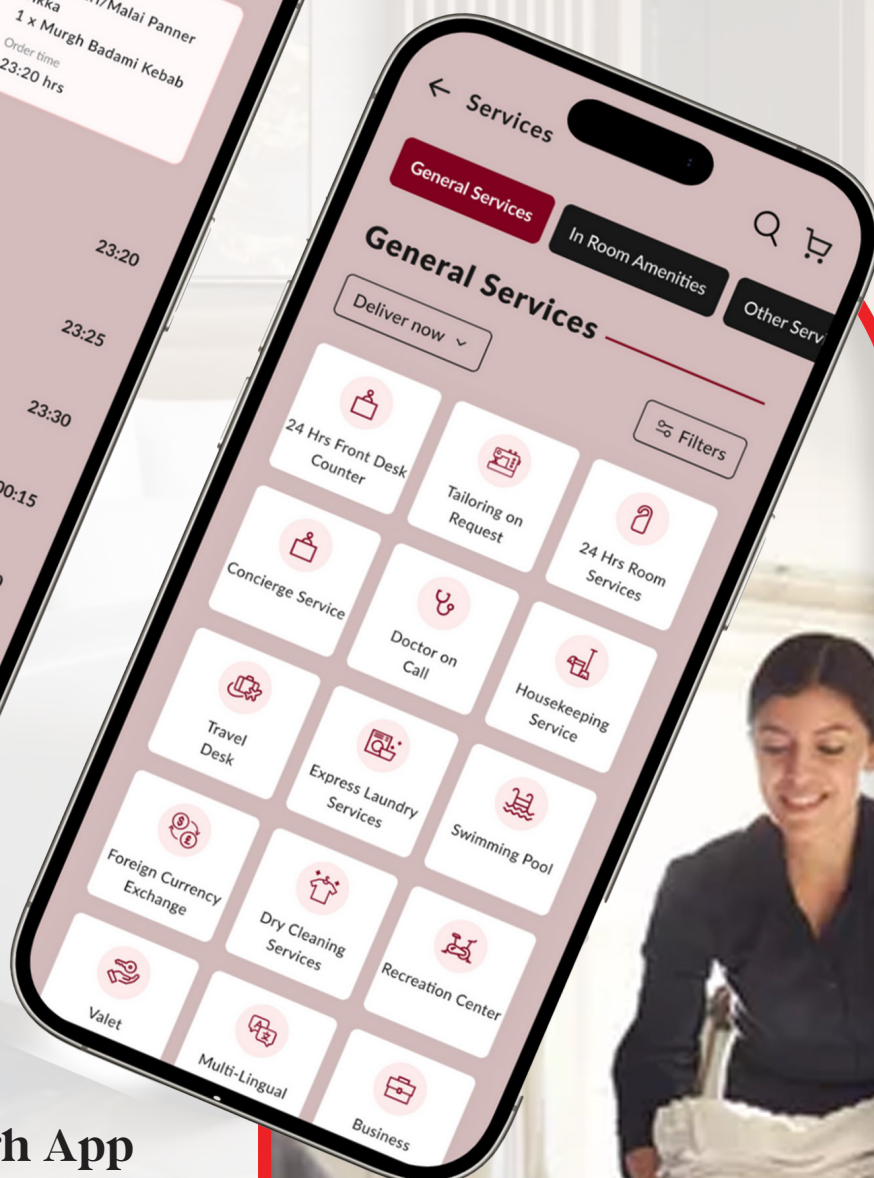

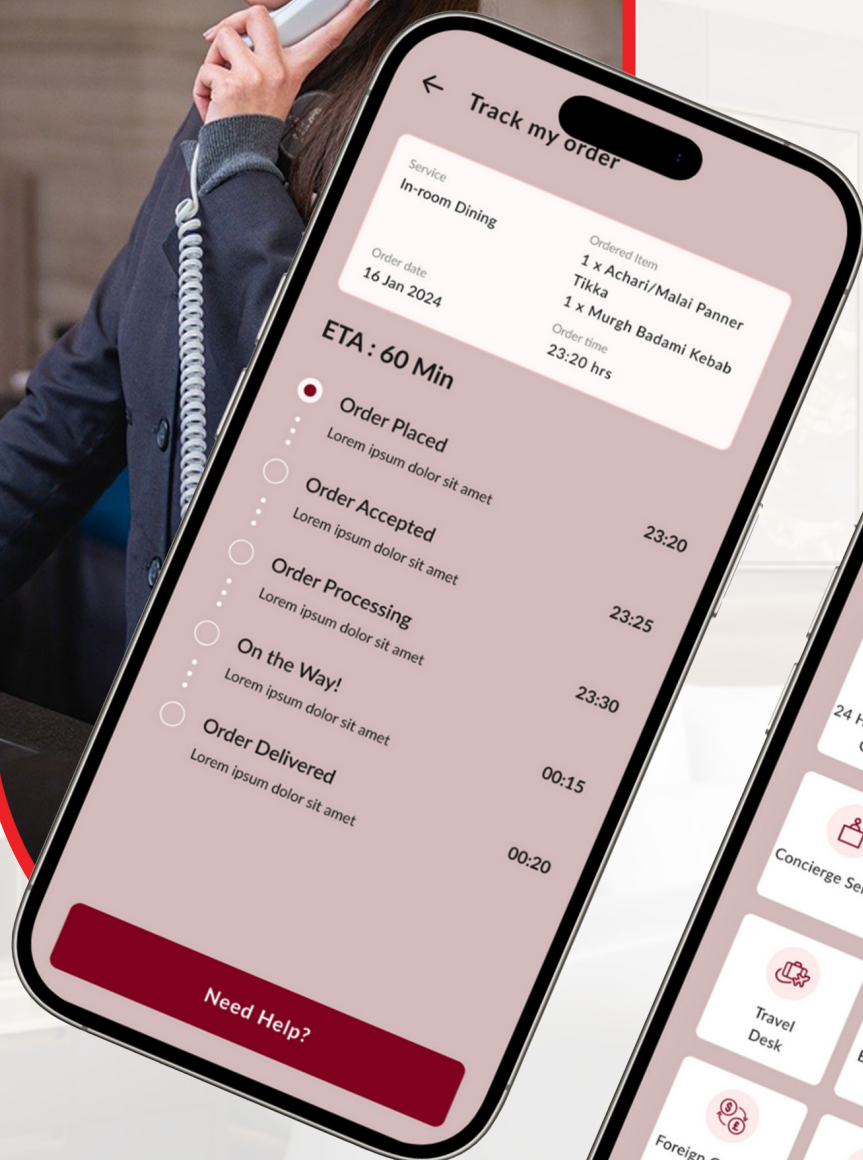

Keyless Room Access

- Mobile-based room access eliminates the need for physical keys or RFID cards.
- Secure, contactless entry enhances convenience and safety.

Third-Party Integration

- Seamless OTA integration for booking management.
- Compatibility with payment gateways for hassle-free transactions.
- Integration with Hotel PMS
- Integration with Door Lock Manufacturers

Guest Services Through App

- Guests can access and manage all hotel services, including room service, spa bookings, housekeeping, and more, directly through the app.
- Real-time updates and tracking for seamless service delivery.

F&B Management

- Push notifications for meal promotions, happy hours, and specials.

Upselling and Revenue Optimization

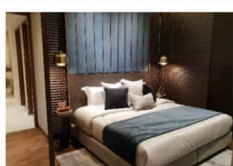

- Integrated POS for seamless billing and order tracking.

Need a ride?

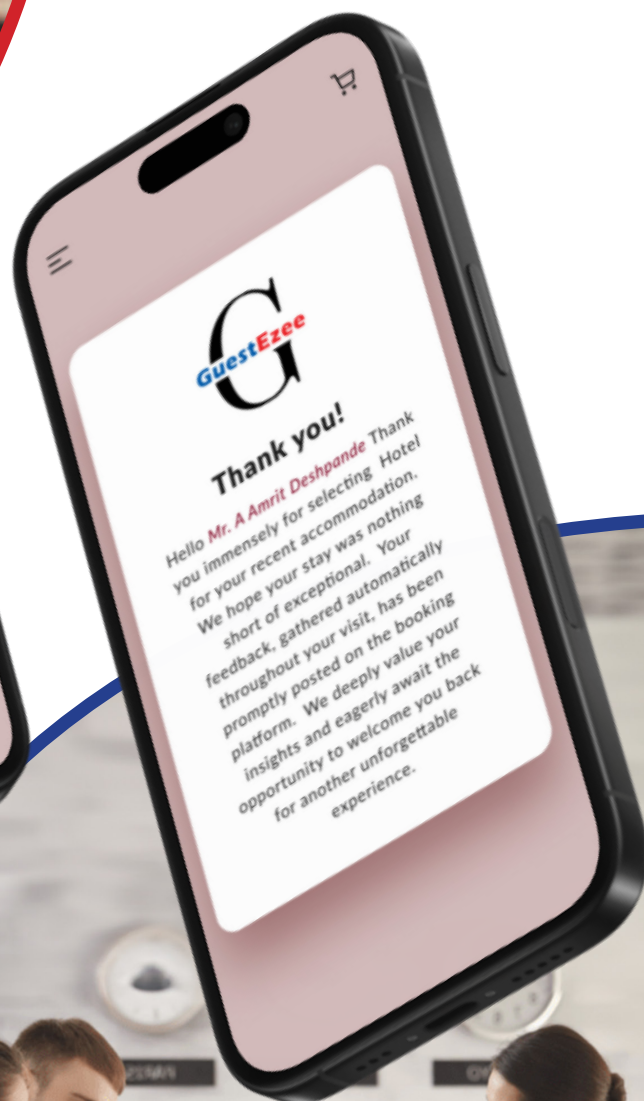

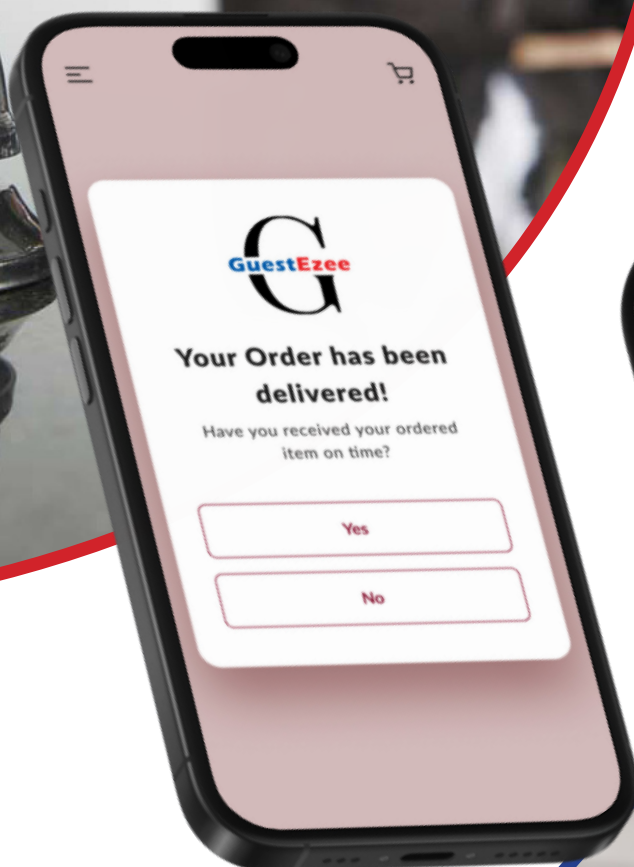

Room upgrade

Escalation and Feedback System

- Automated escalation workflows ensure timely complaint resolution.

AI-Driven Review Automation

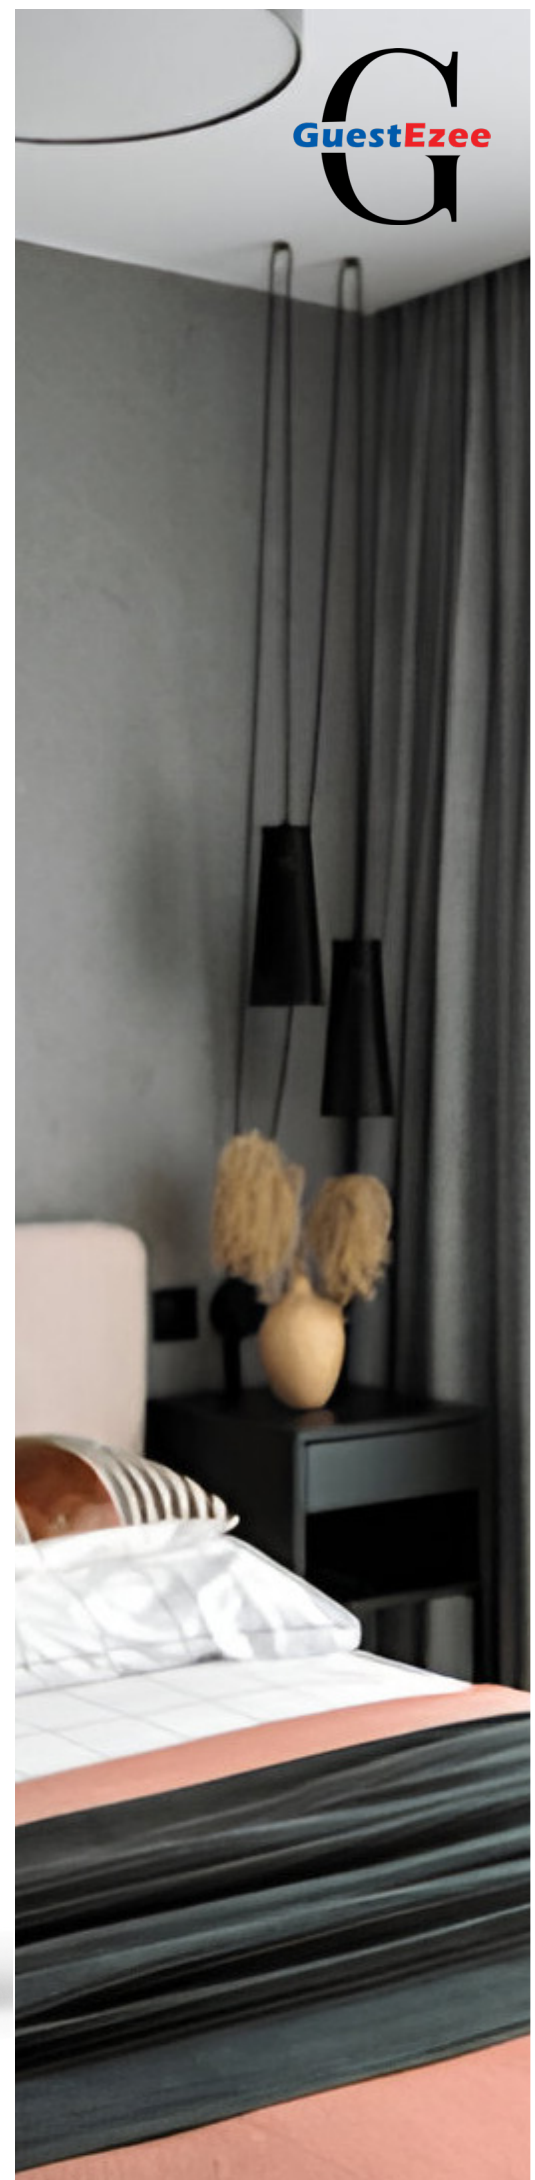

- Guest reviews are analyzed and automatically posted to respective OTAs, boosting online visibility and ratings. Thus, improving the hotel's ARR.

GuestEzee empowers guests to enjoy a fully connected and personalized experience while enabling hotels to deliver exceptional service with efficiency and innovation.

Why Guesteeze?

- **Enhanced Guest Experience:** Improved ratings and repeat customers.
- **Increased Revenue:** Upselling services and better occupancy rates.
- **Streamlined Operations:** Efficient staff workflows and faster issue resolution.
- **Stronger Reputation:** Reduced negative reviews and enhanced brand value.
